

4 Courses

Writing, Running, and Fixing Code in C

Pointers, Arrays, and Recursion

Interacting with the System and Managing Memory

Apr 19, 2024

yashika

has successfully completed the online, non-credit Specialization

Introductory C **Programming**

This specialization develops strong programming fundamentals for learners who want to solve complex problems by writing computer programs. Through four courses, you will learn to develop algorithms in a systematic way and read and write the C code to implement them. This will prepare you to pursue a career in software development or other computational fields.
